I am happy to know that the XVI National Conference of the All India State Government Employees Federation will be organised from April 5 to 8.

I am pleased to acknowledge the various initiatives taken by the Federation for the welfare of the employees and for being in the forefront of struggles for the welfare of various sections of the society.

For schemes initiated by various state governments, the Federation plays a key role along with Finance Commissions constituted by the Government of India.

I hope the Conference is a grand success, and I would like to wish the Federation all the best in its future all its endeavours.

MESSAGE

Revolutionary greetings to all the delegates of the 16th National Conference of the All India State Government Employees Federation.

It is the responsibility of the left and progressive forces to conduct struggles against those who seek to undermine our constitution, democratic institutions, secular fabric and socialistic ideals. I hope that this National Conference will go a long way in intensifying the struggles, by arraying all democratic and progressive forces together with us.

In these trying times we should pay serious attention to organise and unify the workers on a strong and sound class basis - against any caste and communal lenience - and thereby protect the interests of the common people, the workers and employees, and prevent the national wealth from being plundered by the profit mongering corporates.

My best wishes to the AISGEF. I hope that your National Conference will devise new strategies to protect democracy, uphold secularism and realise socialism.

• We Shall Over Come •

Ten thousand times has the labour movement
stumbled and fallen And bruised itself,
and risen again; and clubbed into insensibility;
Enjoined by courts, assaulted by thugs,
charged by the militia, Shot down by regulars,
traded by the press,
Frowned upon by public opinion,
deceived by politicians,
Threatened by priests,
repudiated by renegades,
Preyed upon by grafters,
infested by spies,
Deserted by cowards,
betrayed by traitors,
Bled by leeches,
and sold out by leaders,
But notwithstanding all this,
and all these,
It is today the most vital
potential power this planet
Has ever known,
and its historic mission of
emancipating
The workers of the world from
the thralldom of the ages
Is as certain of ultimate
realization as the setting of the sun

The rights of the workers and employees are derived not out of benevolence or mercy of the state power; but rather snatched from their unwilling hands by relentless innumerable sacrifices.
